# Calling all mid-career GPs!

*Worried about the current state of primary care?*

*Want to change things, but unsure of how to?*

The logo for Lazarus Reclaiming General Practice is displayed on a dark blue background. The word "Lazarus" is written in a large, white, lowercase serif font. The letter 's' is stylized with a yellow and white swoosh that extends to the right. Below "Lazarus", the words "Reclaiming General Practice" are written in a smaller, white, uppercase sans-serif font.

REDEFINING THE BOUNDARIES OF PRIMARY CARE

23rd March

| 2-4:30pm

| Free to attend

---

*CPD events and fellowship programmes often target GPs at the start and end of their careers, but what about the 30 years in-between? We are a team of clinical educators seeking to prioritise mid-career GPs facing challenges in their everyday practice.*

**In our first workshop, mid-career GPs have shared with us their priorities for change in practice. Many highlight the need to redefine the boundaries of our everyday work in order to make it sustainable.**

In this online workshop, we'll explore a different way to approach areas for change based on the priorities you've highlighted and leave you with the tools to apply this in practice.
